

# BRADFORD SCIENCE FESTIVAL

## Fun things to do by the river

### Play Pooh Sticks

You will need sticks and a safe bridge to stand on

- Collect sticks as you walk along the riverbank. Think about what makes a perfect pooh stick; is it big and twiggly or small and streamlined?
- Stand on the bridge next to your competitors and drop your stick into the river so that it floats underneath you. Rush to the other side to see which stick appears from under the bridge first and is the winner!

### Make your own rivery ABC

- This is an activity that requires no preparation. Just take a walk along the riverbank and set yourself the challenge of making a rivery ABC as you go

### We will start it off for you:

A is for ATLANTIC SALMON leaping at the weir  
B is for the river BANK  
C is for a COOT swimming in the river  
D is for....
